PLANO SYMPHONY ORCHESTRA
PRESENTS
“FAMILY SYMPHONY SUNDAYS”
2011-2012 SEASON
A FUN, INTERACTIVE 5 CONCERT SERIES FOR FAMILIES!

What: The Family Symphony Sundays is a fun, interactive series of five concerts guaranteed to be an enjoyable and memorable afternoon for children and adults alike! The four ensemble concerts will be held at the Frisco Discovery Center in Frisco and at the Courtyard Theater in Plano.

Each ensemble concert will be an interactive experience that introduces the audience to the Strings, Percussion, Woodwinds and Brass. Come early before each concert and enjoy the Plano Symphony Instrument Petting Zoo, a hands-on musical learning experience, and more. You and your child will have a great time learning and being exposed to great music all for one low price, less than the cost of a movie.

All instrument families are brought together at our *Spooky Symphony* concert on Sunday, October 30, 2011 with the entire Plano Symphony orchestra! A fun-filled afternoon with music from Superman, Star Wars and Halloween favorites awaits you and your child. Costumes are encouraged! Special pre-concert lobby activities unique to this concert begin at 2:15 pm.
